## SUMMARY

Frontend / Full-Stack Engineer with 6+ years of commercial experience building production web applications across enterprise banking, SaaS, e-commerce, logistics, and business platforms. Works primarily with React, Next.js, and TypeScript, with hands-on backend experience in Node.js, Express.js, Laravel, relational databases, and REST APIs.

Experienced in delivering business-critical interfaces and owning features end-to-end, from UI architecture and complex business logic to API integration, testing, database work, and deployment.

## SKILLS

**Front-end:** HTML5, CSS3, SCSS, Tailwind CSS, JavaScript (ES6+), TypeScript, React.js, Vue.js, Next.js, Angular (basic)

**State:** Redux, Redux Toolkit, Pinia, TanStack Query, React Hook Form, Zod

**Back-end:** Node.js, Nest.js, Express.js, Laravel, PHP, REST APIs, WebSockets

**Data & Storage:** PostgreSQL, MySQL, Redis, Firebase, Elasticsearch, Kibana, Kafka, RabbitMQ

**Quality & Performance:** Cypress, Jest, PHPUnit, Playwright, performance optimization

**Production & Tools:** Docker, AWS, Jenkins, Grafana, Git, Linux, Nginx, CI/CD, SSR, SSG

**Patterns & System Design:** OOP, SOLID, Clean Architecture

## WORK EXPERIENCE

### Frontend Developer — UAITLAB

February 2026 – June 2026 · Remote, Ukraine

- Delivered frontend functionality across commercial products, primarily with React, Next.js, TypeScript, Vue.js, and Laravel.
- Developed a task-management platform with React and Express, building data-heavy tables, routing, reusable components, and complex application logic from product mockups.
- Built an e-commerce application from scratch with Next.js, establishing frontend structure, pages, reusable components, and product integrations.
- Contributed to Laravel and Vue.js applications, resolving UI and application issues and supporting backend functionality as needed.

**Stack:** React, Next.js, TypeScript, Vue.js, Express.js, Laravel, REST APIs

### Full-Stack Developer — JetUp

August 2024 – September 2025 · Remote

- Worked on a digital art platform focused on image management, search, and content administration.
- Developed backend functionality with Laravel 10 and frontend features with Vue 3 and PrimeVue.
- Built admin tools for image search and content management, including data-driven interfaces and reusable UI functionality.
- Improved database structure and MySQL query performance; increased reliability through PHPUnit and Cypress test coverage.

**Stack:** Vue 3, PrimeVue, Laravel 10, MySQL, PHPUnit, Cypress

## WORK EXPERIENCE — CONTINUED

---

### Frontend Developer — A-Bank

September 2022 – August 2024 · Ukraine

- Developed enterprise banking and internal financial systems used by cashiers, administrators, collectors, analysts, and operational teams.
- Built workflows for ATM and cash-register management, collection and reconciliation, currency exchange, credit and deposit processing, and financial documents.
- Created data-heavy interfaces with advanced tables, filters, operational statuses, balances, shortages, contracts, and administrative workflows.
- Refactored React applications and implemented shipment tracking, invoice generation, email delivery, document processing, and archive management through REST APIs.

**Stack:** *React, TypeScript, JavaScript, REST APIs, SCSS, Enterprise UI Systems*

### Frontend Developer — IThinkers

May 2020 – September 2022 · Ukraine

- Developed e-commerce platforms and business management systems for restaurants, cafés, and commercial services.
- Built responsive customer-facing interfaces, admin panels, and internal tools with React, Next.js, and TypeScript.
- Implemented e-commerce functionality and integrated payment systems, Firebase services, analytics, and marketing tools across commercial projects.
- Worked on SEO and frontend performance optimization and supported Linux/Nginx-based environments.

**Stack:** *React, Next.js, TypeScript, JavaScript, Firebase, Linux, Nginx*

### Junior Frontend Developer — Zenbit Tech

September 2019 – March 2020 · Ukraine

- Worked on a logistics and delivery management platform focused on driver operations, route management, and delivery tracking.
- Integrated Google Maps API for map-based functionality, route visualization, and location-related features.
- Developed and maintained frontend functionality and internal operational interfaces, resolving UI and application issues across the platform.

**Stack:** *JavaScript, Google Maps API, Frontend Development*

## EDUCATION & LANGUAGES

---

- Master's Degree — Sumy State University, 2008–2013
- **Ukrainian:** Native
- **English:** Upper-Intermediate (B2)
