PROFILE

Frontend / Full-Stack Engineer with 6+ years of commercial experience building production web applications, enterprise financial systems, SaaS products, e-commerce platforms, and data-heavy internal tools. Strong frontend expertise in React, Next.js, and TypeScript, complemented by hands-on backend experience with Node.js, Express.js, Laravel, relational databases, and REST APIs. Comfortable owning features end-to-end - from UI architecture and complex business logic to API integration, testing, databases, and deployment.

CORE STACK

FRONTEND React · Next.js · TypeScript · JavaScript · Vue 3 · Redux · Zustand · TanStack Query	BACKEND & DATA Node.js · Nest.js · Laravel · PHP · PostgreSQL · MySQL · Redis · Firebase
QUALITY Cypress · Jest · PHPUnit · REST APIs · Performance Optimization	PRODUCTION Docker · AWS · Jenkins · Git · Linux · Nginx · CI/CD · SSR · SSG

SELECTED HIGHLIGHTS

- Built and maintained business-critical enterprise banking interfaces covering ATM operations, reconciliation, currency exchange, contracts, balances, and financial workflows.
- Built an e-commerce frontend from scratch with Next.js and delivered complex task-management interfaces with React and Express.
- Worked full-stack on a digital art platform with Vue 3, PrimeVue, Laravel 10, MySQL, PHPUnit, and Cypress.
- Integrated Google Maps API and route visualization for a logistics and delivery management platform.

PROFESSIONAL EXPERIENCE

Frontend Developer | **UAITLAB** | Feb 2026 - Jun 2026 | Remote, Ukraine

- Worked across multiple commercial products, primarily delivering frontend functionality with React, Next.js, TypeScript, Vue.js, and Laravel.
- Developed a task management platform with React and Express, implementing data-heavy interfaces, tables, routing, reusable UI components, and complex application logic from product mockups.
- Built an e-commerce application from scratch with Next.js, establishing frontend structure, pages, reusable components, and product integrations.
- Contributed to Laravel and Vue.js applications by implementing features, fixing UI/application issues, and supporting backend functionality when required.

TECH React · Next.js · TypeScript · Vue.js · Express.js · Laravel · REST APIs

Full-Stack Developer | **JetUp** | Aug 2024 - Sep 2025 | Remote

- Worked on a full-stack digital art platform focused on image management, search, and content administration.
- Developed backend functionality with Laravel 10 and frontend features with Vue 3 and PrimeVue.
- Built and enhanced admin tools for image search and content management, including data-driven interfaces and reusable UI functionality.
- Improved database structure and MySQL query performance, and increased application reliability through PHPUnit and Cypress test coverage.

TECH Vue 3 · PrimeVue · Laravel 10 · MySQL · PHPUnit · Cypress

PROFESSIONAL EXPERIENCE — CONTINUED

Frontend Developer | **A-Bank** | Sep 2022 - Aug 2024 | Ukraine

- Developed large-scale enterprise banking and internal financial systems used by cashiers, administrators, collectors, analysts, and operational teams.
- Built complex frontend workflows for ATM and cash register management, collection and reconciliation, currency exchange, credit/deposit processing, and financial document management.
- Developed data-heavy interfaces with advanced tables, filtering, operational statuses, balances, shortages, contracts, and administrative workflows.
- Refactored and extended React applications, improving code structure and maintainability across business-critical internal systems.
- Implemented workflows for shipment tracking, invoice generation, email delivery, document processing, and archive management through REST API integrations.

TECH React · TypeScript · JavaScript · REST APIs · SCSS · Enterprise UI Systems

Frontend Developer | **IThinkers** | May 2020 - Sep 2022 | Ukraine

- Developed e-commerce platforms and business management systems for restaurants, cafés, and commercial services.
- Built responsive customer-facing interfaces, admin panels, and internal business tools using React, Next.js, and TypeScript.
- Implemented e-commerce functionality and integrated payment systems, Firebase services, analytics, and marketing tools across commercial projects.
- Worked on SEO and frontend performance optimization and supported Linux/Nginx-based project environments.

TECH React · Next.js · TypeScript · JavaScript · Firebase · Linux · Nginx

Junior Frontend Developer | **Zenbit Tech** | Sep 2019 - Mar 2020 | Ukraine

- Worked on a logistics and delivery management platform focused on driver operations, route management, and delivery tracking.
- Integrated Google Maps API for map-based functionality, route visualization, and location-related features.
- Developed and maintained frontend functionality and internal operational interfaces, resolving UI and application issues across the platform.

TECH JavaScript · Google Maps API · Frontend Development

EDUCATION & LANGUAGES

Master's Degree

Sumy State University · 2008-2013

Ukrainian - Native

English - Upper-Intermediate (B2)
